Fatal Accident on the Canadian Pacific
Railway.

FOUR KILLED AND ONE MISSING

The Cause of the Accident Given as the
Work of Train Wreckers—The
Trestle Said to Have
Been in an Unsafe Con-
dition.

BAVON, July 3.—The Montreal express
on the Canadian Pacific railroad, due here
yesterday morning, went through a trestle
between Ashtab and Moose Head. Three
or four passengers were killed, and a number
injured. The train was reported on
line with a number of passengers for the
Bavon and Ashtab road. A special
train with physicians on the way to the
scene of the accident. The Montreal
express is stalled here on account of the ac-
cident. Those killed are a passenger named
George Leavitt, Engineer Leavitt, Asst. Eng.
of Greenville, and Mail Clerk Stanley. The
injured are Fireman McDonald, Baggage-
man, and News Agent Devine.

St. John, N.B., July 3.—The Montreal
express, due here at one o'clock yesterday
morning, was stalled before one of the trestles
is very hard to get information from the
officials in this city, who declare they
know little about the accident. It is
known, however, that all the cars except
the sleeper went through the trestle work
at Ashtab, miles from Brownville, on
the Atlantic division, about 5 o'clock in
the morning, and that Engineer Leavitt,
Mail Clerk Stanley, and a station agent
at Greenville, who was a passenger on the
train, and a second-class passenger named
Port, from Fort Point, were killed.

Another second-class passenger, whose
name is unknown, is missing and is sup-
posed to have been wrecked near the trestle.
The official cause of the accident is given as the
work of train wreckers. It is said three
men were playing on the trestle, and that
the bridge and that the brakes on the
engine and cars were found had down,
which is taken to indicate that the engineer
had seen the obstruction and was doing
his best to stop the train before reaching
it. Whether or not the cause can
only be conjectured, for the engineer will
never tell his story.

Mail Clerk Stanley, who was
killed, is a native of this city, where his
wife and family reside. He has been
twenty-two years in the railway and mail
service.

COMMITTED FOR TRIAL
Mrs. Hartley Will Be Up for Murder at the
Fall Assizes.

BRANTFORD, Ont., June 29.—The trial
of Mrs. Maria Hartley and Henry Ling was
resumed at the police court yesterday.
Isaac Haight, George Morgan and James
Foster were in the witness box, but the
evidence produced was much the same as
at the coroner's inquest.

There being no criminal evidence
against Henry Ling, he was discharged
with the consent of the crown.
Henry Ling was then put to the witness
box and testified that improper relations
existed between Mrs. Hartley and himself
on the day Caleb Hartley went to Hamil-
ton. Mrs. Hartley told him, Ling, she
had given Caleb a big dose of Rhuoh on
Rats in rhuoh pie. She intended to do
it, and had given him and offered him
one thousand dollars to keep quiet. She
wanted the insurance and was going to
kill him. Ling said he had known that,
and told Mrs. Hartley that if he had known
that, he never would have worked there.
Mrs. Hartley said she could not have a
young man of twenty around New Durham.
She had been giving him, Caleb Hartley,
the poison all along. She said Ling was
giving her powder, and the doctors ordered
she threw them out and gave the poison
instead. The Saturday before Caleb
Hartley died, Mrs. Hartley told Ling she
had given him a big dose of the poison
and never expected to see him return from
Hamilton alive. Mrs. Hartley put Elizabeth
Crawright out to watch that Caleb
Hartley did not come home when he Ling
was in the room with her. This closed the
examination.

FIGURED IN THE REBELLION.
Captain Joseph Lee, a Man With a Career,
Died at Windsor.

WINDSOR, June 30.—Captain Joseph
Lee, one of Windsor's oldest and most re-
spected citizens, is dead. He was 78 years
of age, and had seen the border grow from
an uninvited, unsettled frontier land to
its present condition.
During the rebellion of 1837 he was on
duty at Amherstburg and other points
along the Detroit river, and later on was
in command of the military at Kingston.
He was also in charge of the forces when
Von Schultz, one of the leaders of the re-
bellion, was hanged. While chief clerk
in the quarter-master general's office at
Montreal he was accused of being con-
nected with the conspiracy to burn the
Parliament Buildings and was forced to
retire from the service.

Some years later it was shown that he
had been unjustly accused, and he was
given a civil service position in the Custom
house Department.

After quitting the military service Cap-
tain Lee turned his attention to theatricals,
and for five years travelled with E. A.
Southern, Mary Gannon, Charles
Fisher and other noted players of that
time.

The Ocean Sound Hotel Builders.
OWENS SOUND, Ont., June 30.—A bur-
glary of some \$275 and \$200 in notes
was committed at a house kept by the
Queen's hotel here. It appears that two
youths are the guilty parties. They were
at the time locked up at the Queen's hotel
in some way obtained the key of the safe and
made a duplicate. They were captured in
the vicinity of Holland Centre, where they
have been living a lonely life. Upon their
arrest they confessed and \$250 was recovered.
They are now in the county jail here
awaiting trial.

Assaulted Prison Officials.
TORONTO, June 30.—Two prisoners,
Charles Jones and John J. Jones, who
were confined in the Central Prison, re-
volted against prison authority yesterday
morning, and were taken to the
Guard House, which had been hit by
talking. Jones made a murderous assault
on Andrew Sweeney, the keeper. Jones was
given three years at Kingston and Jones
two years, which they will serve when
their sentences expire.

Henry Corby Re-Nominate.
BELLEVILLE, June 28.—The Conserva-
tives of West Hastings have unanimously
re-nominated Mr. Henry Corby for the
Commons.

Robert Kennedy, of Protestant Hill, near
Belleville, had the top of his head torn off
by the discharge of a gun he was carrying.
Whether it was a case of suicide or not
is unknown.

**There are 494 prisoners in the Kingston
Penitentiary.**
The Masonic Grand Lodge will meet in
Hamilton, July 18 and 19. It is expected
that about 800 delegates will be present.

INTERCOLONIAL TRADE

All the Delegates Attend the Opening
Meeting at Ottawa.

ALL-BRITISH CABLE PROJECT

The New South Wales Delegation Strongly
In Favor of the Scheme—Lord Rose-
bery Cables His Sympathy
With the Work of the
Conference.

OTTAWA, June 29.—The delegates to the
Colonial Conference are all here. They
are as follows:
Great Britain—Earl of Jersey and Sir
W. H. Mercer, of the Colonial Office.
New South Wales—Mr. F. B. Sutton.
Cape Colony—Sir Henry de Villiers, Sir
Charles Mills, Mr. H. A. J. Thorne,
South Australia—Mr. Thomas Playford.
New Zealand—Mr. Albert Lee Smith.
Victoria—Mr. H. H. Wilson, Mr. N.
Fitzgerald, Mr. Simon Fraser,
Queensland—Mr. A. J. Thorne, Mr. Wm.
Forrest.
Honorable Chamber of Commerce—Mr.
Theodore H. Davies.
The Canadian delegates are Mr. Mackenzie
Bowell, Sir Adolphe Caron, Mr. Geo.
K. Foster and Mr. Sandford Fleming.
The delegates assembled in the Senate
Chamber at half-past ten o'clock, and
Lord Aberdeen delivered the opening ad-
dress. Sir John Thompson, of the Senate,
his Excellency then called upon the Earl
of Jersey and a delegate from each of the
colonial representatives made an address.
The Governor-General, in welcoming the
delegates, said they had come together to
discuss matters which were of great im-
portance to the empire as a whole. The
objects of the meeting were well defined.
The programme of work was large and
important. Australian trade for Canada
might be very large and great things also
might be expected from South Africa.

There were upwards of 300 guests in the
Russell last night to the Imperial and
Colonial delegates by the Canadian Com-
missioners to the Colonial Conference.
Hon. Mackenzie Bowell occupied the chair
and the vice chairmen were occupied by
Ministers of the Crown. His Excellency
the Governor-General sat to the right of
the chairmen, next to him was Hon.
G. A. Kirkpatrick, Lieut.-Governor of
Ontario. On the left of the chairmen were
the Earl of Jersey, the Imperial delegate,
and Sir John Thompson, the Dominion
Premier.

OTTAWA, June 30.—The first business
meeting of the colonial conference was
held in the office of Hon. Mackenzie
Bowell, Minister of Trade and Commerce.
The conference met in secret. It was,
however, reported that the meeting had
been called by the Canadian Com-
missioners to the Colonial Conference.
Hon. Mackenzie Bowell was appointed
president of the conference and Sir
Adolphe Caron, of the Dominion, was
appointed secretary.

OTTAWA, July 3.—At the meeting on
Saturday of the colonial conference the
delegates were devoted to a discussion of
intercolonial trade.
Sir Adolphe Caron presided in the ab-
sence of Mr. Bowell, who went to Bel-
leville to attend the funeral of his son-in-
law.

After the meeting was over the Post-
master-General said that the only infor-
mation that could be given to the press was
that the whole forenoon was devoted to
discussion of intercolonial trade.
Sir Henry Wilson on the subject of inter-
colonial trade. Sir Adolphe Caron refused
to discuss the subject of intercolonial trade,
or as to what was the character of
it. It was decided before the conference
adjourned that no information should be
given to the press, and that none of the
delegates was to cable anything to his
respective Governments.

Sir Adolphe Caron presided at the
meeting of the conference yesterday.
The sitting, which was of course private,
was devoted to the consideration of the
project for laying a cable across the Pacific Ocean
to connect British Columbia with Aus-
tralia, a matter which has been under
consideration of the Government since the
Colonial Conference, including Canada, to
grant a subsidy to the scheme.

Mr. Sandford Fleming read a paper at
the conference on the scheme.
A cable was received yesterday from
Lord Rosebery by Hon. Mackenzie Bowell
which read as follows: "I am anxious to
express to you as president the interest and
sympathy with which I have followed the
conference and proceedings which should
be so happy an augury of the future of the
Empire."

Drowned in Toronto Bay.
TORONTO, July 29.—Another drowning
accident occurred in the bay on Saturday
night. Some boys were playing with an
old raft, and one of the boys, Frank McGee,
aged 10, stepped on to the raft, and fell
into the water. He was not seen again.
James Gibb, caretaker of the Royal Life
Boat station, found the body of the boy
floating in the water, and took it to the
slip. Teddy Marshall, a companion,
grabbed the boy as he was going down, and
was pulling him on the raft when young
McGee caught hold of Marshall's leg
and was pulled down. The boy was found
by his hold and young McGee was
drowned.

Confagration in Blackstock.
BLACKSTOCK, Ont., July 3.—On Sunday
morning the village of Blackstock was
destroyed by fire. The property was
stored by fire: Mrs. Mahood, dwelling house,
G. McGill, dwelling, R. K. Aker,
dwelling, and the store of R. R. R.
Pratt, telegraph and post office; R. J.
McNally, furniture store; the cause of the
fire is unknown.

Six Months for Horse Stealing.
BANKS, June 29.—John Burridge stole
a horse and buggy from Mr. Powers at
Thornton and drove it nearly all night and
left it at Altondale the next morning.
The horse was recovered, but the driver
was not. He was taken up in Central
Prison.

Two Boys Drowned.
CHATHAM, June 27.—Yesterday a colored
boy named Harry was drowned in the
river while bathing, and in the evening
another lad, Gallagher by name, lost
his life while learning to swim in McGregor's
creek.

DOMINION RELIANCE

Mr. Edgar Prefers Charges Against
Caron and Langevin.

THEIR CORRUPT PRACTICES

The Resolution Affirms That These Two
Members Used Public Money With
Which to Purchase Their
Election—The Resolu-
tion Defeated.

OTTAWA, Ont., July 4.—In the House
last night the following resolution was
moved by Mr. Edgar impeaching Sir Hector
Langevin and Sir Adolphe Caron:
"That from the public trial and con-
viction of Thomas McGreevy and N. K.
Connelly for conspiracy to defraud, and
from evidence and papers already before
this House, it appears that large portions
of the money which were found upon
said trial have been illegally received by
the said Thomas McGreevy from the
Government contractors who so received
by him for the purpose of being expended
in elections in the interest of the Con-
servative party and for distribution by Sir
Hector Langevin, and Sir Adolphe Caron,
M.P., for the election of themselves
and of other supporters of the Government
at the general elections held in February,
1887."

It is further apparent that large por-
tions of the money, together with other
large sums collected by Sir Adolphe
Caron from those interested in Govern-
mental railroads, were expended
and distributed by Sir Hector Langevin
and Sir Adolphe Caron, in and in view
of the fact that the resolution was
defeated, to assist in the election of
themselves and of other supporters of the
Government in the district of Quebec at
the general elections held in February,
1887.

"That it further appears that large por-
tions of the money, together with other
large sums collected by Sir Adolphe
Caron from those interested in Govern-
mental railroads, were expended
and distributed by Sir Hector Langevin
and Sir Adolphe Caron, in and in view
of the fact that the resolution was
defeated, to assist in the election of
themselves and of other supporters of the
Government in the district of Quebec at
the general elections held in February,
1887."

Capital Notes.
It is rumored that Mr. Z. Wilson, col-
lector of customs for the city of Ottawa,
will be superannuated in a few days and
that his place will be filled by Mr. Ben-
son. The date of the change, it is al-
leged, have been made by the Govern-
ment.

Frederick A. Wain, superintendent of
the Rideau canal, died yesterday at his late
residence on Daly avenue.

Mr. Tarte, M.P., has written to the
Premier, Mr. Mackenzie Bowell, asking
bringing up in the House the conduct of
certain judges in the Province of Quebec.
The Premier has replied that this matter
was incidentally referred to in the House a
few days ago by Mr. Tarte, when he was
asked to bring up the subject of the
conduct of the judges in the Province of
Quebec. Mr. Tarte has now written to
prepare them to give names but he is now,
and has supplied Sir John Thompson with
the same.

In the Public Accounts Committee C.
A. Geoffrey, Q.C., and J. N. Enart,
of Montreal, appeared before Sir John
Thompson, and Sir Adolphe Caron, and
Hannaford, chief engineer of the Grand
Trunk railway, estimated that the cost
of the cable would cost the Government
\$70,000 and then leave a margin of \$1,000.
This bridge actually cost the Government
\$170,000.

SHOT AT THE FOREMAN.
Italian Laborers on the Coteau Canal
Were Killed by a Shot.

MONTREAL, July 4.—A special from
Coteau says: This village has been dis-
turbed very much lately by the trouble
between Italians employed on section 11
of the new canal, for which Mr. Farrelly is
contractor and Robert Farrelly, the boss
of the dynamite accident a couple of
weeks ago.

Farrelly called on Saturday morning
to leave the works. He did so, but some
of the Italians, who were employed on this
section, followed him to the house, and
threatened to kill the foreman. Farrelly
did not pay much attention to the threat,
but the Italians pulled out a revolver
and shot at him. Farrelly, fortunately,
without effect. The Italian then took to
the woods.

Some of the constables were ordered to
arrest him, but was afraid to do so, and
he still remains at large. There are over
a hundred Italians employed on this sec-
tion, and many of them are armed. The
residents think that the Government should
send a police force to the works, as the
police are in no condition with the
constables.

THE COLONIAL CONFERENCE.
The Day's Sitting Taken Up With the
Pacific Cable Scheme.

OTTAWA, July 4.—The Colonial Con-
ference yesterday discussed the Pacific cable
scheme. Mr. Davies, of Honolulu, pre-
sented the immense benefit which would
accrue to both Canada and Australia
by the construction of the cable.
In reply to Mr. Foster he said that while
such a cable might not pay in the im-
mediate future he would stake his reputation
that within ten years it would.

Mr. Davies then asked Mr.
Davies for full figures concerning the
cable, which he promised to col-
lect. Mr. Davies then said that he would
discuss the scheme. No conclusion was arrived
at. The conference will to-day again take
up the cable, and will deal with it
until it is finished.

The Geron Land Heir Closes.
MONTREAL, July 4.—The Thomson Line
steamer, the Geron, which was chartered
for the purpose of carrying the mail, was
sunk on the night of July 3 and landed
her shipment of live stock, 600 cattle, 19
horses, and a number of sheep, on the
shore of two bullocks which she had on
board.

Canadian Trotting Record Lowered.
HAMILTON, July 4.—The trotting record
for Canada was lowered from 2:14 to 2:10
by Mr. C. J. Hamilton's (Buffalo) Fantasy on
the mile track here yesterday.

Baggage Agents Convention.
MONTREAL, July 4.—The Railway baggage
agents here are making preparations for
the general baggage agents convention on
July 18.

A son of James McMaster, of the front of
Ridley, on Friday last, was killed by a
bullet which penetrated his jaw, and he
was carried to the hospital on the day of
breaking it above the ankle.

We are just getting a taste of the hot

the Awful Destruction on a M.
Battle Ship.

the description of a battle which has not written would fit a great battle which would be fought at the same time any time in the future, between two armies equally well provided with weapons and equipments. Some of the tactical changes have been made in military movements, tactics since the war was fought between two nations. It shows that, in order to draw a picture that a battle would be between two continents, we must have recourse to scientific imagination" of an experienced military matters.

Colonel Chordis, professor of tactics at the French general staff school, has drawn such a picture. He says, "I may gain a clear idea of the awfulness of which would accompany such a battle-field, he says, will end with my own's main line, and begin where it begins—that is to say, at the edge of the sea, thirty miles from the coast, thirty miles from the coast, a little less than two miles. Modern

But the enemy carry a greater distance than we, and the likelihood that the ground will be broken, tend to bring near to the front the first phase of the battle-field. Within this range of three kilometres we shall have three phases of combat; first, the cannon, second, the rifle zone, and third, the hand-to-hand zone. The range of the cannon extends to a distance of about a hundred metres, a little less than a mile. The three thousand metres of the rifle zone, fifteen hundred metres of the new rifle borne by us, and up to this point the cannon must be prepared the way, by outdoing them in the enemy's cannon, for the terrible effect of the modern repeating rifle, and the use of high powder.

Though the rifle zone is fifteen hundred metres, its deadliest work will all take place within a range of about half a mile, from seven to eight hundred metres. Inside the seven hundred metres line, in a zone of almost certain death, under no conditions can any body of men stand undisturbed.

Died of Horror.

A few mornings ago some of the Clay Bank ranch Texas came to the body of a man lying in a little

Among some rocks. About his head coiled a large rattlesnake, while a huge monster had crept in at the collar of his flannel shirt. The men saw the first snake and killed it without a moment's delay. The second was aware of the presence of the second when one of the party tried to slip under the shirt, in order to ascertain whether he was really dead, the snake raised its head and struck at him, giving him time to hastily snatch his hand out of the creature's fangs.

On examination it was found that the man had only been dead a few hours, and that his healthy appearance is the result of the fact that he lay down to sleep in the place where the snakes were crawling from the rocks.

The Queen's Memory

Here are a couple of stories told
wonderful power of memory enjoyed
Majesty. Conversation at the dinn
the Windsor recently turned on Ro

the Pope. The Queen somewhat surprised those present by saying that she had known his Holiness, adding—"He was present at the coronation of me many years ago, when Cardinal Howard was then Cardinal Howard; then we knew how he was at all likely to be Pope. Indeed, Cardinal Howard seemed to me much the better chance. But I regret the occasion quite well: it must be nearly thirty years ago." In Florence one day I had perceived a man attempting to photograph her in her carriage. I called the attention of one of her attendants to him, and said—"I should like to know that man; he was mentioned to me by Palmerston when I wanted photographs copied by a permanent process, and he did them for me, but I thought

First Dude—What are you doing really?
Second Dude—Nothing at all, do you know.
First Dude—And your brother?
Second Dude—He is with me, you know.
First Dude—Does it take you both of that?

A project for an electric railroad from New York to Washington is on foot, and it is claimed that a speed of 120 miles an hour will be reached.

The employees of the Grand Trunk shops, at Montreal, and other places who were laid off about six weeks ago returned to work on Tuesday last.

A bomb was thrown into the press room of the House of Commons, Ottawa, on Friday night of last week. An explosion followed which made a hole in the floor and shattered the windows, and, setting fire to the building. The fire was soon extinguished, and the total damage is estimated at over \$500. It is thought the bomb was intended to destroy the line over press of the House, but fell short of its mark, and the press was unharmed.

Credit Sale.

Tuesday, July 10.—On Lot 12, Con. 9, Rawdon, 14 good Irish Linen Vests and 12 good Irish Linen Pants, all new, for sale at a dollar by Mrs. J. J. McConell. Sale at 2 o'clock. James Montgomery, Auctioneer.

He Did Squal.

My how we made the Belleville man squal when we contracted prices, and showed up how little he knew about the Trenton Barge Prices. Then he hides behind the fence of Irish Linen Vests and Pants, but he never sees Belleville's in the sale. In the meantime we sell the same for a dollar by Mrs. J. J. McConell. The judges of bargains are consumers, not advertisers. Belleville & Co.

ITEMS ABOUT ROYALTY.

Corsets have not been worn by Queen Victoria in over twenty years.
The King of Portugal has the most costly crown in the world. The gold and jewels of which it is composed are valued at \$85,000.
The iron cage as a prison was invented in France by the bishop of Verdun in the time of Louis XI, and the bishop himself was the first prisoner to be placed in it.
The Sultan of Turkey nearly always dresses alone. Tables, knives and forks are eschewed. He uses only a spoon and his fingers, thus fanning out the food from little saucers placed on the floor.
The Sultan of Turkey is a monarch on the subject of carriages. He has been steadily engaged in making a collection of such vehicles for the past twenty years and now has nearly 800 of all makes and kinds.
The Carina of Russia has joined the noble army of typewriters. She has mastered the technique of the machine, and many of the Czar's memoranda on State affairs are her work, merely signed with his initial, "A."

During the thirteenth century the Chinese emperors made money from the inner bark of the mulberry tree, cutting it out round pieces and stamping it. To counterfeit or refuse to accept it as a legal tender was punishable by death.
The navigation of the Dead Sea is the latest step in oriental progress. The Sultan has sent two sailing boats, one for freight and one for passengers. Abdul Hamid is said to try to make money out of the salt bitumen and sulphur of the lake.
Princess Maud, of Wales, who is more like her father than any other of the Prince of Wales' children, inherits the paternal love of humor. She is an inveterate punster as well, and she and her father make a merry pair when they are in a joking mood.

SAT ON THE GENERAL

Soldier Members of the Commons Say Herbert is Incapable.

St. John Thompson Says Terms Have Not Been Explicit Enough to Justify an Inquiry—Franchise Act Laid Over—The Queen Congratulated.

OTTAWA, July 18.—In the House, Colonel Tisdale brought up the question of the suspension of Col. Powell the Adjutant General of Militia, by Major General Herbert. The Colonel, who represents South North and who is a follower of the Government, read from the 'law on the subject' that the Adjutant General was to be suspended by the Minister of Militia. He pointed out that there was an existing law that the Major General was an Imperial officer, and also a criticism. It was true that he held rank as an Imperial officer, but he was nevertheless an officer of the Canadian Government and under the control of the Minister of Militia. He held that the Major General was totally unacquainted with the needs of the Canadian militia and the sooner he was removed the better for his own reputation and the interests of the force.

Major Sam Hughes, who represents North-West, declared Major-General Herbert as the Minister of Militia to be a failure. The Minister of Militia defended the Major-General to some extent although he admitted he was right in suspending the Adjutant General.

The matter dropped without any motion being made on the subject. The outcome will be that the Adjutant General will be appointed his own general from the Canadian militia.

NO ARBITRATION COMMISSION

The Commission Appointed by President Cleveland Has No Part Beyond Investigating the Strike—The Proposition Sent to the General Managers.

CHICAGO, July 14.—Eugene V. Debs, who ordered the great railroad strike, made a more informal address looking to a settlement yesterday. He drew up a formal proposition to the general managers of the railroad companies, and agreed to have the same returned to him out of pocket. This proposition was presented to Chairman St. John and the General Managers Association. The association was not satisfied with the proposition, and the individual members had been consulted. It was recommended that the proposition be returned to Major Hopkins without answer and with the information that no communication whatever from Debs, Howard and Kollmer could be received or considered by the association.

President Debs was asked by a reporter what he had said the strike was off. He replied that the strike was a pure fabrication and has been heard of no more. He told no one that the strike has been decided to be continued. All I said was that a proposition had been made to the railroad companies looking towards a settlement of the strike.

PRACTICAL FARMING.

Preparing Plums for Market.

In most cases, the market for plums is a large one, and the grower should be prepared to handle a large quantity of fruit. The first step in preparing plums for market is to select the best fruit. This should be done by picking the fruit when it is ripe, and by sorting it into grades. The next step is to wash the fruit. This should be done in a large tub of water, and the fruit should be washed thoroughly. After washing, the fruit should be dried. This can be done in a sun-drying rack, or in a large tub of water. Once the fruit is dried, it can be packed for market. The fruit should be packed in a large box, and the box should be labeled with the name of the grower and the variety of the fruit.

Relation of Butter Flavor and Color.

The flavor and color of butter are closely related. The flavor of butter is determined by the quality of the milk used to make it. The color of butter is determined by the amount of carotene in the milk. Carotene is a yellow pigment that is found in the milk of cows that graze on green grass. The more carotene in the milk, the more yellow the butter will be.

Sheep Ticks.

Some farmers seem satisfied to raise 50 per cent. of lambs, and then to expect that they will be able to raise 100 per cent. of lambs. This is a mistake. The number of lambs that a farmer can raise is determined by the quality of the feed that he provides for his sheep. If the feed is poor, the sheep will not be able to produce as many lambs as they would if the feed was good.

When Is a Cow at Her Best?

Prof. Wall discusses the question and comes to this conclusion: That maximum production and the greatest profits are obtained when the cow is in the best of health, and when she is properly fed. The cow should be fed a diet that is rich in protein, and she should be kept in a clean, dry environment.

Watches of Parisian Swells.

The ladies of the Parisian swells are very particular about their watches. They like watches that are simple and elegant, and that are made of gold or silver. They also like watches that have a large face, and that are easy to read. Salmon in New Zealand.

The true salmon have never yet been successfully introduced into New Zealand waters. Why not? Because, it is said, the New Zealand sea is so abundant in voracious fish, barracoutas, sharks, and the like, that the salmon have no chance of returning unscathed from their first visit to the salt water.

SHIPMENT OF GOLD.

A Fabulous Amount of Gold Carried to Europe by the Atlantic.

The quantity of treasure carried across the Atlantic when Spain was robbing Mexico, Central America, and South America, though supposed to be fabulous, is not so great as the quantity of gold that is now being shipped to Europe. The quantity of gold that is now being shipped to Europe is so great that it is almost impossible to count.

Best Modes of Preserving Food.

Salmon in New Zealand.

The true salmon have never yet been successfully introduced into New Zealand waters. Why not? Because, it is said, the New Zealand sea is so abundant in voracious fish, barracoutas, sharks, and the like, that the salmon have no chance of returning unscathed from their first visit to the salt water.

Not So Easy as It Looks.

Lay a chair on the floor in the manner shown by the picture. Ask some one to sit on it. The person who sits on it will find it very uncomfortable. This is because the chair is not designed to be sat on. The chair is designed to be used as a chair, and not as a seat.

Household.

A Mother's Duty.

There is no part of a woman's duty to her child that a young mother should so soon make it her business to study as the voice of her infant, and the language conveyed by his face. The study is not hard, and it is not difficult to do. It is only a matter of time and patience.

The 12th of July was celebrated by a large gathering at Springfield, a number of guests from the village. A very pleasant time was spent.

Mr. Jas. Bygott, has placed on exhibition in the Post Office a stock of sweet orange curds about the size of length. He says his whole lot is good.

At the Belleville Cheese Board on Tuesday there were offered 1365 white and 390 colored, a total of 1755 lbs. of cheese. The prices ranged from 9c to 10c.

James Swetnam, of Frankford, has built a Parrot, revolving hammock, playhouse and gym, all in one. The thing is all right if it had enough patrons to spend five cents each for the fun.

A number went from here to witness the launch of the steam yacht at the Point on Tuesday last. Unfortunately they were disappointed, as from some unavoidable cause the launch did not take place till the following day.

A number of our villagers have gone into camp for the hot weather. The families of Mr. J. H. Boldrick, Rev. J. M. Gray, and Mr. L. Meiklejohn are at Crow Lake. Rev. Mr. Gray has recently erected a neat little cottage there.

These are dog days. They began July 2nd, and will end August 11th. They get their name from the fact that the brightest star in the constellation of the Great Dog, and called the Dog Star, which rises and sets with the sun.

Mr. Geo. H. Conley's Jersey Heifer, May Queen, which has been awarded the first prize at Apology since Thursday last, is remaining unconscious for four days in recovering through the untiring efforts of Dr. Cook, V.S.

On Saturday evening last a couple of small boys were knocked down and run over on the corner of one of our streets, but fortunately no serious injury was sustained. The accident was caused by the horse becoming frightened, and suddenly springing to one side.

We regret to learn of the death of Mr. T. E. Pearce, which took place a few days since at Santa Barbara, California. Mr. Pearce was formerly one of the most respected citizens of Belleville, and from there to Toronto.

How much more precious is eye sight to the teeth! None of us would think of going to any but a dentist to have our teeth properly attended to; but it is just as ridiculous to go to any but an Optician for properly fitted glasses. Among the residents of Belleville, will scientifically fit your sight. No charge for looking.

Mr. E. C. Burke, proprietor of the Northumberland Paper Mills at Cornwall, was suddenly stricken on Monday morning with hemorrhage of the brain, and expired a short time. Mr. Burke was one of the most energetic and enterprising men of the Campbellville, and has successfully managed the paper mills for many years. He leaves a wife and two sons to mourn his loss.

On Friday last the Stirling Post Hall team went to Warkworth to play a match with the Warkworth team. The match resulted in Stirling being victorious by a score of 2 to 1. Warkworth won the first goal after three-quarters of an hour hard play, while the Stirling boys did their best and won two goals in fifteen minutes. The last one was dropped when the decision was given in favor of Stirling, which was worth boys refused to accept the decision.

The Ontario Mutual Life Company has always been noted for its high character of business. Another evidence of this will be found in another column, by the payment of the late Mr. Dugan's insurance. The cheque was issued as soon as the claim was made, and the company's policy was immediately paid.

On Monday last, in the Dominion Parliament, Mr. Dalton McGee moved that the Northwest Territories be left free to deal with educational matters, so that at any time in the future they should be able to separate schools should they see fit. This motion was voted down, 21 voting for, and 114 against. Nearly all the Liberal members voted with the Government against the motion of Mr. McGee's motion. Among the 21 we find the name of Mr. Carleton, who thus did honor to the constituency he represents.

James Swetnam, of Frankford, has built a Parrot, revolving hammock, playhouse and gym, all in one. The thing is all right if it had enough patrons to spend five cents each for the fun.

A number went from here to witness the launch of the steam yacht at the Point on Tuesday last. Unfortunately they were disappointed, as from some unavoidable cause the launch did not take place till the following day.

A number of our villagers have gone into camp for the hot weather. The families of Mr. J. H. Boldrick, Rev. J. M. Gray, and Mr. L. Meiklejohn are at Crow Lake. Rev. Mr. Gray has recently erected a neat little cottage there.

These are dog days. They began July 2nd, and will end August 11th. They get their name from the fact that the brightest star in the constellation of the Great Dog, and called the Dog Star, which rises and sets with the sun.

Mr. Geo. H. Conley's Jersey Heifer, May Queen, which has been awarded the first prize at Apology since Thursday last, is remaining unconscious for four days in recovering through the untiring efforts of Dr. Cook, V.S.

On Saturday evening last a couple of small boys were knocked down and run over on the corner of one of our streets, but fortunately no serious injury was sustained. The accident was caused by the horse becoming frightened, and suddenly springing to one side.

We regret to learn of the death of Mr. T. E. Pearce, which took place a few days since at Santa Barbara, California. Mr. Pearce was formerly one of the most respected citizens of Belleville, and from there to Toronto.

How much more precious is eye sight to the teeth! None of us would think of going to any but a dentist to have our teeth properly attended to; but it is just as ridiculous to go to any but an Optician for properly fitted glasses. Among the residents of Belleville, will scientifically fit your sight. No charge for looking.

Mr. E. C. Burke, proprietor of the Northumberland Paper Mills at Cornwall, was suddenly stricken on Monday morning with hemorrhage of the brain, and expired a short time. Mr. Burke was one of the most energetic and enterprising men of the Campbellville, and has successfully managed the paper mills for many years. He leaves a wife and two sons to mourn his loss.

On Friday last the Stirling Post Hall team went to Warkworth to play a match with the Warkworth team. The match resulted in Stirling being victorious by a score of 2 to 1. Warkworth won the first goal after three-quarters of an hour hard play, while the Stirling boys did their best and won two goals in fifteen minutes. The last one was dropped when the decision was given in favor of Stirling, which was worth boys refused to accept the decision.

The Ontario Mutual Life Company has always been noted for its high character of business. Another evidence of this will be found in another column, by the payment of the late Mr. Dugan's insurance. The cheque was issued as soon as the claim was made, and the company's policy was immediately paid.

On Monday last, in the Dominion Parliament, Mr. Dalton McGee moved that the Northwest Territories be left free to deal with educational matters, so that at any time in the future they should be able to separate schools should they see fit. This motion was voted down, 21 voting for, and 114 against. Nearly all the Liberal members voted with the Government against the motion of Mr. McGee's motion. Among the 21 we find the name of Mr. Carleton, who thus did honor to the constituency he represents.

Camping Out.

A correspondent sends us the following interesting sketch. On Monday morning the 10th of July the sun rose in its fullest grandeur, and by the light of its earliest rays three pleasure seekers, of whom your correspondent was one, left Stirling, bound on spending a few days on the waters running south of Mamour.

Crow Lake was our first point in view, and, needless to say, it pleased all three immensely. In the time, and the tiny ripple on the surface seemed to welcome our approach. A boat was soon launched, and in a very brief space of time we were gliding up the beautiful lake. The water was most beautiful, and the view of Crow Lake was our first resting place. Here we had dinner and an hour's rest.

Meal was over eaten with greater relish, though it "melted" in the stomach. We would not rest, and ere long our boat was again skimming over the lovely waters of Blount Bay, on whose shores the great iron bed in Blount is seen, but we were not long to tarry in this beautiful spot. We soon entered Crow River and after about a mile's row we came to the first rapids, and let me tell you that in these rapids the chief pleasure was found, grand fishing, and besides, the interesting adventures in wading the rapids.

As we passed these three glorious rapids and at the head of the last we found ourselves at the beautiful and picturesque town of Mamour. Here we had a good dinner and a rest, and then we started on our way to the famous waters of Belmont Lake. This lake has been visited by many of our countrymen, but the thrill of delight that we experienced on this trip was not to be forgotten. We had a good dinner and a rest, and then we started on our way to the famous waters of Belmont Lake.

THE SCIENTIST.

It is computed that every year the earth receives about one hundred and sixty six billions of shining stars, which fall on its surface, thus slowly adding to its mass.

The discovery has been made by a German physiologist that the milk of lactating mothers contains a small amount of alcohol, and it is his belief that such mothers communicate to their offspring a desire for stimulants.

A French physician has constructed an acting model of the human heart. It is of the size of a child's heart, and is made of natural organs, with every detail, and a real blood current through it and through artificial arteries.

A mass of one thousand pounds weight will lose exactly two pounds between the water and the top of a mountain four miles high. This is plain to be seen, in the case of the force of the earth's attraction is much less on the mountain top than it is at sea level.

It is now believed that chemical and medical science will soon make the vegetable foods notably gross digestible by man without first passing through animal intermediaries. An enormous increase in the food supply of the world would be the result.

Petroleum is not in any sense a product of destructive distillation, but it is the result of a peculiar chemical decomposition, by which the organic matter passes at once into this or allied products. It is the result of the primary decomposition of organic matter.

THE DAIRYMAN. If your dairy has no pedigree, start one at once. The cow with a temper will yield poor milk. All straw and hay will turn a bright before a dark cow.

A good way to check a valuable cow is to feed her winter vegetables. A dirty stranger reflects a badly on the milk on her who values it. Too much carbonaceous food in the milk will make fat faster than butter fat.

Give the animals plenty of room in the stable in which to lie down, if you would make them comfortable. Do not let the milk get cold before it is carried from the milking stable to the dairy house to be strained.

To feed economically, and to be sufficiently give the cows only what they will eat up clean. Trying to stuff them beyond this limit will result in loss and not in gain.

Think twice before you go into the business of raising calves by letting them suck the dam. The system is a demoralizing effect on the dairy, offsetting the temporary gain.

THE ARTISTS. Constable's landscape, "The White Horse," was sold recently at Christie's, in London for \$3,510 (\$32,500). An expert declares that he knows of at least six other pictures of the same artist which are now hanging in private galleries in the United States, and all of which are copies purchased in Europe at very high prices.

The death is announced of Mrs. Gray of Bowersville, Pennsylvania. She was the mother of Lady Hamilton, the noblest of the age of forty-four years. It was from Mrs. Gray's garden that Sir John Millar derived his celebrated picture, "The Veil of Rest."

Nunkay has just completed a great picture, "The Great Shipwreck," for the maritime chapel of the late Count Julius Andrius. It is said to be one of the best works of the artist, and is a masterpiece of art conception to any previous work of the Hungarian master.

REPAIRS.

Anyone wanting repairs for the Massey Harris Co.'s machines, will please leave their order at once. I can get them down by freight, which will cost less than by express. If they are left till wanted, the parties ordering will have to pay Telegrams and Express charges.

COTTONS AND PRINTED GOODS.

Factory Cottons are very low at present, 15 to 20 per cent. less than they were ever sold at before. Those wanting any should lay in a stock, as it will not be for long. Crumb's prints are now selling at 12 1/2c. per yard. They are wider than other prints, and at that price are cheaper than the ordinary 12 1/2c. kind would be at 10c.

SUGARS, TOO, ARE LOW.

St. Lawrence Refinery Granulated, 20 lbs. for \$1. 24 lbs. very light, free from glucose. These Sugars are strictly pure. I have still got some of the Fox & Wicket 25c. Tea that I am selling at 15c. per lb.

E. F. PARKER.

Belleville's civic holiday has been fixed for Wednesday, August 1st.

The rate of taxation in Belleville this year will be passed by law inuring a few of \$500

It is stated that a protest will be entered against the election of Dr. Smythe for King-

ton. It will be remembered that the re-

count gave him a majority of one.

A well of mineral water has been struck on Tidd's Island, near Gananoque. The water upon analysis is found to be as good as any in existence, being said to equal Apollinaris.

To prevent any more cruises visiting Lindsay the Town Council of that place has passed by law inuring a few of \$500

It was formerly \$50.

Amongst the speakers at Warwick on the 12th of July was Mr. Buchanan, who is 104 years old, and who walked eight miles that morning to take part in the proceedings of the day.

Mr. Brown, representing the Berlin School Supply Company, leased a tale property at Sherbrook Lake for ten years, with the option of buying it at the end of three years.

Some 50 tons of tale have been converted into crayon pencils. There is no dust from the crayon, and the marks can easily be erased. This sort of crayon is what school teachers have been waiting for, but never expected to get.

To the Editor of the News-Argus.

RESPECTED SIR.—On behalf of those interested in the establishment of a first class High School Library in Belleville, I have the honor and pleasure of acknowledging the receipt of the following books:—Report of the Ontario Council of Education (1892); Hastings Directory for 1879 and 1880; Ontario Directory (1885); Canadian Architect (1892); McKenna's Almanac (1892); and a copy of McKenna's Almanac. These works are at the disposal of the Editor of the ARGUS.

I have also received the kindness of Mr. James Boldrick, a copy of McKenna's Almanac. These works are at the disposal of the Editor of the ARGUS.

Thomas Nat, whose great success as a dramatist has not killed his original desire to become a historical painter, spent last winter in the work of his heart, and has produced two pictures on events of the rebellion. But, all the same, he is still likely to win more fame in black and white than in oils.—Hartford Contract.

INTERESTING PERSONALS.

Geromino, the famous renegade Apache, is now a justice of the peace in Alabama. The latest writer in the world is a young Dublin gentleman, George Bur-

bury. He can write 250 words in a minute.

Dr. Emily A. Bruce declares that more women in New England die because of faulty dress than from all contagious diseases.

Mrs. Claudia Herrera, a Mexican woman, died in San Francisco the other day at the age of 120. Her acquaintances are positive there is no mistake about her age.

Mrs. Balch, of Bar Harbor, Me., is 89 years old, but the other day she climbed over the top of the highest mountain of the lake, and wasn't even tired out by her exertion.

Mrs. Alice H. May, a niece of Andrew Jackson, who was born in Algiers, Louisiana, 56 years ago, died at Phoenix, Alaska, June 8. Mrs. Ramsey was a field nurse during the rebellion.

Mrs. Mary Fullbrook cannot be examined for admission to the bar in New Jersey because the court of that state has decided that the weight of reason is against the granting of such an admission.
